Much has been written on the topic of guided reading over the last twenty years, but no other leaders in literacy education have championed the topic with such depth and breadth as Irene Fountas and Gay Su Pinnell. Literacy experts Jan Richardson and Michele Dufresne have developed a new guided reading system called Literacy Footprints that will help teachers provide powerful small-group literacy instruction. Though I've been busy with TeachThought for the last four years, my original 'trade' was teaching English (literature, writing, digital media, etc.) I was recently going through an old folder of reading reflection prompts and forms, and found a reading log that I called a "self-guided reading a-z" ranked #1 by teachers. Already being used in nearly half of the school districts in the U.S. and Canada and 155+ countries worldwide, discover how reading a-z's affordable, easy-to-use teacher resources fill the teaching gaps left by many reading education programs. This correlation chart illustrates how learning a-z levels approximately correlate to other leveling systems commonly found in leveled reading materials. Different book leveling systems each have unique ways of describing the age- and grade-level appropriateness of books. This chart provides equivalency information across six leveling systems: Basal Level/Pals, Guided Reading, DRA, Rigby PM, Reading Recovery, and Lexile. Cambridgeshire Guided Busway, known locally as the Busway, connects Cambridge, Huntingdon and St Ives in the English county of Cambridgeshire.
